

## Traveller First

A unique programme of value added benefits for business travellers to enhance their travel experience. Encompassing benefits, knowledge and security aiming to reduce the stress employees can experience when they're out of the office.

### Peace of mind

We want to ensure our travellers feel safe and secure no matter where they are in the world. And with the back-up of our experienced and knowledgeable team, travellers know we're always there when they need us.

Our in-house team of experts are available 24 hours of the day, 365 days of the year. The teams are experts in travellers' requirements and are fully trained in emergency travel assistance.

### Traveller tracking

Our traveller tracking and security reporting captures booking information, meaning you can be confident that all your travellers can be located quickly and effectively.

### Our technology

Our automated worldwide disruption alerts notify travellers of any issues that may affect their trip, such as strike action or an unforeseen incident. We'll also contact them directly to discuss how we can help and provide alternative arrangements, if required.

Using our innovative mobile app, our travellers can also benefit from information about their trip including itineraries, platform/terminal information, seat/hotel reservations, gate changes, local maps and more.

### Value added benefits

Through negotiating with our partners, we have access to an exclusive range of traveller and meetings delegate benefits to improve their experience on the move, look after their wellbeing, and add value at every opportunity. Here are just a few of the benefits our travellers and delegates can receive:
